## FRITA MUST RESIGN, IS ULTIMATUM GIVEN MEXICO BY U. S. IN LATEST NOTE

Washington Considers Situation Is Grave;  
Only Two Courses Are Open to the  
Provisional President, Comply or  
Prepare to Meet Any Action

*State Historical and  
Natural History Society*  
3.—President Huerta must resign  
presidency of Mexico, or loss of time and must not  
be as his successor Gen. Aureliano Blanquet, his minis-  
ter of war, or any other member of his official family, or of the  
official coterie whom he might be expected to control.

This ultimatum from Washington was conveyed to Pres-  
ident Huerta through his private secretary, Señor Rabago, by  
Señor O'Shaughnessy, the American chargé d'affaires, acting  
under instructions from the state department.

Señor Rabago presented the mem-  
orandum to his chief late Sunday, but  
to this evening President Huerta  
had returned no answer, and as far as  
could be learned, had guarded his con-  
siderations from almost all his official and  
private counsels.

Only Two Courses Open.  
Those who learned of the Wash-  
ington note regard General Huerta's po-  
sition in which he will be forced  
to take, for many reasons, chief  
among which is that such action would  
entominate to submissiveness to the  
U. S. Official Mexico is no longer in  
the. The Washington administration  
favors the rebel cause and is  
inclined that this is the means ad-  
vised by President Wilson and Secretary  
of State to assist Carranza to win.

General Huerta summoned to the na-  
tional palace to consult the diplomatic  
representatives but for what purpose was not  
revealed.

Officials Still Reticent.

defined report was current in official

## S. TAKES GRAVE VIEW OF SITUATION

reign Nations Informed of  
Action This Government  
Expects to Take

HAVANA, Nov. 3.—Gen. Félix  
Díaz, fugitive from Mexico, arrived  
here tonight on the steamer Esperanza  
to which he had been transferred from  
the United States battleship Michigan  
off the Mexican coast.

General Díaz gave out the following  
statement tonight:

To the Mexican People:  
"When I left the country to fulfill  
the mission entrusted to me towards  
the Japanese government, Constitutional  
order prevailed in full vigor.

This lawful situation was maintained  
until the date on which my instructions  
sent to Paris I was relieved of my  
high charge and left at liberty to ful-  
fill the obligation voluntarily con-  
tracted by me with my followers and  
friends.

Tells Why He Left.  
"True to my promise I returned to  
my country without losing time and  
during my homeward journey the dis-  
solution of congress and the arrest of  
a majority of the people's representa-  
tives were brought about by executive  
order which unfortunately disrupted  
the constitutional conditions which  
prevailed when I left. Before such a  
terrible situation, the sole purposes  
which guided me was to remain in the  
country during the time occupied by  
the presidential election thereby ful-  
filling by my presence the requirements  
of the law governing election.

"My purpose being accomplished and  
as I did not wish to be involved in  
the unconstitutional proceedings  
which are certain to develop in Mexico,  
I am compelled to leave the country  
and go to safety abroad where I will  
remain for some time and will adjust  
my future action to conditions as I  
observe them."

Was Afraid of Huerta.  
General Díaz expressed great appre-  
hension at the treatment accorded him  
by the United States in view of the  
policy of keeping them informed of  
every step taken in the Mexican  
situation.

The ultimatum was regarded by  
the American chargé d'affaires as  
the first step in the program for  
which the United States had asked all  
the foreign governments to be  
informed officially that a meeting of  
diplomatic corps had been called.

Developments were awaited with  
most interest by officials here.

Foreign Nations Informed.  
It was reported on diplomatic lines  
here that copies of the ultimatum  
had been transmitted to all foreign  
governments by the United States in  
view of the policy of keeping them  
informed of every step taken in the  
Mexican situation.

NEW YORK, Nov. 3.—With fusion  
and Tammany leaders predicting a  
landslide tomorrow for their respective  
candidates, the municipal campaign,  
described by the livelyest of a generation,  
came to a close tonight with a speech  
making in all parts of the city.

"We will win by 150,000," declared  
Charles P. Murphy, of Tammany hall,  
who in the last three weeks has been  
moved to break his sphinxlike silence  
more often than in any previous campaign.  
Fusion estimates of victory  
range from 75,000 to 125,000. John  
Purroy Mitchel is the fusion candidate  
for mayor, while Edward K. McCall is  
the standard bearer for Tammany.

Information reaching police headquarters  
that "strong arm" men, gunmen,  
guerrillas and thugs were to be  
employed to intimidate voters tomorrow,  
was chairman of the executive committee  
said that the strikers had been advised  
that they were not obliged to  
surrender their arms, since martial law  
had not been proclaimed.

#### Hawkins Denies Report.

Horace Hawkins, chief counsel for  
the United Mine Workers, in view of  
the report, issued a statement positively  
denying that he had given any  
such advice.

Mr. Hawkins and Frank J. Hayes  
were in conference for several hours  
today.

A large number of the mine deputies  
proclaiming en masse in the initial strike  
was learned today. More miners are now  
at work than at any time since the  
strike was called, according to statements  
of the operators.

In view of the riot at Walsenburg  
yesterday in which one man was shot,  
an order was issued this morning to  
disarm everyone found with firearms  
in their possession. Two hundred  
weapons were confiscated.

It was decided tonight after five  
cases of typhoid fever had developed  
in the strikers' tent colony at Ludlow  
by General Chase to incite all the  
miners scattered in that district, "an  
extraordinary method to prevent the  
disorder entering the ranks of the Na-  
tional guard. Chase with his command  
will proceed with the disarming of the  
strikers, and every rifle and all am-  
munition will be turned over.

#### Hayes Back on Scene.

No prospect of a speedy settlement  
of the coal strike in the southern Colorado  
fields exists at present, in the  
opinion of Frank J. Hayes, interna-  
tional president of the United Mine  
Workers of America, who has just re-  
turned from the district from Denver.

Hayes denied the report that many  
of the strikers are preparing to go back  
to work under protection of the state  
militia. He also stated that the miners  
had large numbers of mine guards and  
strikers have been killed during recent  
clashes and that the bodies have either  
been left in the hills unburied secretly.

An investigation of the report that  
the coal companies are evicting the  
law importing men, giving them a few  
hours' work at the Pueblo steel mills  
and then sending them to the mines,  
is being made, he said.

"The number of rifles in possession  
of the strikers," he said, "has been  
greatly overestimated." He said, "I am not  
presently engaged in this investigation."

Dr. E. R. Walters, county delinquent  
tax collector, and Howard Baurier,  
director of the city department of sup-  
plies, today were held under \$500 bail.

## The Town of Today

The merchant who considers  
methods employed 10 years ago good  
enough, quickly finds himself out-  
distanced by his competitors who  
adopt the new methods, install the  
new system and keep up with the times.  
The same setting of the town  
that is content with the achievement  
of yesterday.

The town that allows its com-  
mercial organization to stagnate,  
that permits petty jealousies and  
personal animosities to lessen the  
efficiency of the town, and the  
town with the slogan "Give liberal  
support to our central working  
commercial association." Because  
this is a case of keen competition  
between cities.

Colorado Springs is on the upward  
trend. It is one of the most pros-  
perous towns in the west. As long as  
the chamber of commerce gives its  
effective attention to fundamental  
things as it has done these last  
three years, success will continue.

A city cannot exist in a day. It  
takes time to think and patience  
and power and endurance.

It is of great importance that the  
one central, efficient committee of  
organization in the community has  
the support of men who believe in  
the town and its progress. Pueblo  
has a chamber of commerce of 600 mem-  
bers, the city of Colorado Springs  
has a chamber of commerce of 400 mem-  
bers, and the city of Colorado Springs  
has a chamber of commerce of 400 mem-  
bers.

The chamber of commerce  
has made good, but it is not  
the consolidating of the community  
in place of the former more sub-  
stantially founded.

case as substantiating his contention. I am confident, if it please the court, continued the special assistant to the state general, that this decision of the evidence and all answers of these defendants further add to the conclusion to be drawn that the combination as alleged was not in any way to the extension of the foreign trade of any of the individual concerns which went into it. In that, to put the answer of the defendants is an

trust. To justify this assertion Mr. Grossman read copies of the sales reports of the Trust in 1911. Mr. Judge concluded that for several years

## Two Ways

to make clothes.

One is to put in just enough tailoring (and lots of pressing) so that the garment will look good in front of the mirror.

The other is to work and mould and stitch the cloth until its style and shape become part and parcel of the fabric. A suit or overcoat of this sort, bought from us, in sure months of clothes satisfaction.

We specially call your attention to "Greenberg Tailored" Garments.

Previous to the formation of the International Harvester company, their foreign trade had been increasing at a steady ratio.

Going into that portion of the defendants' paper labeled "Growing Competition," Mr. Grossman directed the court's attention to the evidence of Matt Sprule of Springfield, called as a witness to substantiate claims of competition made by counsel for the Harvester company.

**Sprule Case Typical.**

First case of Matt Sprule, if it please the court, Mr. Grossman said, is fairly typical of the sort of competition that this powerful monopoly has had since its organization.

The testimony of Sprule shows that in 1907 Mr. Sprule, a concern manufacturing one machine in 1905, two machines in 1909, three machines in 1910, three machines in 1911, three machines and in 1912, two machines.

These figures compared with those of the International Harvester company, sold annually, will give an idea as to the sort of competition the trust was forced to meet.

Mr. Grossman completed the first portion of his argument and yielded to Judge McHugh of counsel for the defense shortly before the termination of the afternoon session of court. In the brief time allotted him before adjournment Judge McHugh concerned himself almost solely with the "vision of foreign markets" which these practical men in the implement business saw, following the Paris exposition in 1900. He argued that the idea of combining forces after an investigation of conditions in the foreign field, was a natural one considering the immense amount of capital essential to carry out such a campaign.

## 1914 MONEY NEEDS LARGEST IN HISTORY

Seven-Mill Levy Will Be Too Small; Must Eliminate \$119,371.40

Major McKesson is facing the problem of eliminating \$119,371.40 from the appropriations that the various departments of the city's government have made for the demand totals \$374,480.60 which is \$119,371.40 less than a 7-mill levy would raise. The demand would necessitate a levy of 10 mills which is said to be out of the question.

Calculations made by Mayor McKesson yesterday indicated that the total estimates of expenditures amount to \$68,751.19, this sum including the estimated cost of building the proposed Nevada avenue undercrossing and the Shooks run conduit for a street car line to St. Francis hospital, as well as the various requests made upon the council for donations by various organizations. These total \$9,830, but it is thought that when Commissioner Eubank completes his estimate, not all of these donations will be recommended. The difference will probably be less than \$4,000.

The estimated revenues of the city from the water department and all other sources except taxation amount to \$205,565, and the difference, \$363,216.19, is the amount of income the city would have to derive from taxation. But as it is figured that an average of 3 per cent of taxes is delinquent, it would be necessary to raise by taxation no less than \$374,480.60 to bring in the amount needed, and that would require a levy of almost 10 mills on an assessable valuation of \$37,671.210.

A seven mill levy on that valuation would bring in \$262,999.17, or, allowing the three per cent deduction for delinquent taxes, \$255,109.20, and the difference between that total and \$374,480.60, \$119,371.40, represents the sum total of desired expenditures which the mayor will be obliged to eliminate in order to get within the seven mill limit and thus not raise taxes.

### Estimated Expenditures.

The estimated expenditures of the various departments are as follows:	Health	\$17,200.00
	Sewers	18,554.70
	Police	38,000.00
	Fire	41,972.00
	Electrician	12,617.35
	Cemetery	12,000.00
	Public works	100,595.90

	Shooks run conduit	5,000.00
	Water	172,010.00
	Parks	66,500.00
	Library	9,043.00
	Finance	62,861.96
Total		\$589,751.19

The total given for the finance department includes all the requests for special appropriations which will come before the mayor, the list being as follows:

Associated Charities	\$750.00
Band concert	2,200.00
Chamber of Commerce	2,000.00

Woman policeman	1,000.00
Playgrounds	1,500.00
Total	\$9,350.00

The various items in the estimate of the commissioner of finance, including this amount, are as follows:

City attorney's office	\$3,185.00
Auditor's department	2,175.00
Commissioners' salaries	8,000.00
City clerk's office	4,650.00
City service	2,000.00
Domestic service	1,000.00

## S. B. DICKENS SENTENCED TO YEAR IN PENITENTIARY

60-Year-Old Curio Dealer Will Be Taken to Canon City in Few Days; Health Fails

Samuel B. Dickens, for many years a curio merchant of this city, and known by almost every tourist who ever visited Colorado Springs, was yesterday sentenced by Judge Graham of the district court in seven to two years in the state prison on a statutory crime of which he was found guilty last September.

Dickens is well past 60 years of age and is in poor health. Great mental stress during his trial and the events following have nearly ruined his health. He was placed in the county jail yesterday, and will be taken to Canon City in a few days.

The motion for a new trial made by Dickens' attorney was denied yesterday, but it is understood the case will be carried to the supreme court.

**Rock Island Passenger  
Business Here Is Good**

The passenger business of the Rock Island in Colorado Springs, Denver and Pueblo has shown a decided increase in the last two months, according to T. M. Schumacher, new chairman of the Rock Island system. Mr. Schumacher left New York yesterday on a tour of inspection of the road which will bring him to Colorado in a short time. He will be out about six weeks, taking in El Paso, Tex., and western cities while he is on the trip.

Don't stay stuffed up! Quite blowing and sniffling. Ease your throbbing head—nothing else in the world gives such prompt relief as "Papa's Cold Compound," which costs only 25 cents at any drug store. It acts without assistance, tastes nice and causes no inconvenience. Accept no substitute. Adv.

## SPRINGS HOTEL MEN TO HELP DENVER GET ELKS

Session for July Not Settled; Will Help Tourist Season Here If Secured

That the 1914 national convention of Elks is not yet assured to Denver next July is the word brought by local hotel managers who attended the meeting of the Rocky Mountain Hotel Men's association at Denver last week. The convention committee of the lodge will meet December 1 to decide definitely the meeting place of the coming convention. Denver must assure the lodge that \$7,000 has been raised for the meeting before the lodge will consent to meet there. With the raising of this fund in view a committee consisting of James M. Atkinson of the Acada hotel, George S. Elstup of the Alamo, William S. Dunning of the Antlers and E. E. Nichols of the Cliff house was appointed by the hotel men to attend to securing an appropriation from the hotels and amusement and scenic attractions of the Pikes Peak region to go towards the mounting of the convention.

The local hotel men who attended the meeting at Denver last week report a good time, and say that practically all hotel men from the four states of Colorado, Utah, Wyoming and New Mexico included in the Rocky Mountain association declare that the past season was the best from a tourist standpoint of any for some time past. They are all willing to work for Denver in helping that city pull the Elks convention, as that meeting will come at the best time of the year, July, when the season will just be opening and business naturally light.

**Dangers of a Cold.**  
Do you know that of all the minor ailments colds are by far the most dangerous? It is not the colds themselves that you need to fear, but the serious diseases that they so often lead to. For that reason every cold should be gotten rid of with the least possible delay. To accomplish this you will find Chamberlain's Cough Remedy of great help to you. It loosens a cold, relieves the lungs, aids expectoration and enables the system to throw off the cold. For sale by all dealers. Adv.

**County Levy Will Be 3 Mills; Work on Budget**

From the present outlook, it is almost certain that the El Paso county tax levy will be about 3 mills. The county commissioners are at work preparing the budget, and it probably will be about 10 days before the announcements of the exact levy will be made. County Commissioner Van E. Roush said yesterday that the levy probably will be one-third what it was last year on account of the increased valuation.

## RICH COPPER MINE FOUND NEAR SPRINGS

Shipping Ore From Property  
North of Glen Eyrie.  
Runs \$75 Ton

A copper mine the output of which has already reached from one to two carloads of ore a week, has been opened on the Dongles ranch north of Glen Eyrie, by W. E. Weeks and the Society of Colorado City, who have a lease on a part of the ranch. The ore is of a siliceous character, 30% from 25 to 30 per cent copper, running it worth about \$75 to \$80 a ton. The output of the mine is being shipped to Omaha and is of a grade that the smelters there want.

The ore is being carried by the Denver & Rio Grande railroad, officials of which yesterday said that one is being shipped at the rate of from one to five carloads a day. George A. Kiana, executor of the Palmer estate, said that he had not been informed as to the extent of the operations, but who hold a lease on some ground in

## POLICEWOMAN SPEAKS ON SOCIAL EVIL SIDELIGHTS

Under Civic League Auspices Tells That Segregation of Vice Is Not Proper Solution

Segregation of vice is not the proper solution of the problem according to Mrs. Alice Robbins Wells, police officer of Los Angeles, who spoke yesterday afternoon in the Chamber of Commerce auditorium on "Side Light on Social Questions."

Slighty per cent of crime arises from the saloon and prostitution," she declared. "Segregation doesn't segregate. Of course, the evil will spread over the city, but, if it is not protected through segregation, there will be less of it."

In Los Angeles there is no vice district, but the city is as clean from the evil as any city could be where women are prosecuted and men are set free.

Mr. Wells insisted upon a single standard of morality, declaring the double standard is in a large measure the cause of the great social unrest at the present time.

Mr. Wells' address was heard by a large number of people, despite the storm. Mayor McKesson introduced the speaker and Commissioners Johnson and Frost accompanied her to the platform. After the lecture, Mrs. Wells answered the many questions that her listeners pited.

During her talk the policewoman again cautioned cities introducing the woman officer into their police departments to be careful in selecting the woman. Only trained social workers can do the work, she said, and any others would be a curse rather than a benefit to the city.

## PAIN IN BACK AND RHEUMATISM

Torment thousands of people daily. Don't be one of these sufferers when for so little cost you can get well rid of the cause. Foley Kidney Pills begin their good work from the very first dose. They contain no habit-forming drugs. Adv.

## MINING REPORTS MUST BE FILED DURING NOVEMBER

The annual report of all mine operators in Colorado must be filed in the office of the state commissioner of mines in November each year. The principal object of the report is to enable the Colorado bureau of mines to prepare statistics regarding the extent and progress of the mining industry, and thus to encourage investment.

Statistics are useless unless complete. Commissioner of Mines T. R. Henahan urges all operators to send in the annual reports immediately. The law provides for penalties against those who do not but the commissioner believes the mining men should be glad to cooperate.

No fee is charged for filing the report. Blanks can be had free of charge on application to the bureau of mines, state of Colorado, Denver.

ROBERT B. MANTELL IN REBELLION OF SHAKESPEARIAN PRINCE AT THE OPERA HOUSE

Robert B. Mantell, who has come to be recognized as the leading tragedian in America, and whose repertoire of 11 plays is the most extensive and formidable undertaken by any tragedian since the days of Edwin Booth, comes to the Opera house next Wednesday evening for an engagement of three performances in widely contrasted roles.

On Wednesday evening Mr. Mantell will present "Macbeth," in which he won much of his early training as a Shakespearean star, and which has always held a favorite place in his repertoire. Mr. Mantell considers Macbeth one of the most congenial roles ever written for a tragedian, and experiences little difficulty in entering into the part. The story moves along rapidly and the interest as drama is sustained everywhere. The great passion of Macbeth and the retribution

that follows his crime offer to a sympathetic tragedian abundance of chance for magnificent acting, and of all these chances Mr. Mantell takes full advantage. The special Thursday matinee will be "The Merchant of Venice," which has been recognized as an ideal afternoon attraction almost since the days of Shakespeare himself, owing to the special appeal to women. On Thursday evening Mr. Mantell will conclude his engagement with "Hamlet," perhaps the most widely read, and certainly the most discussed of all of Shakespeare's plays.

Mr. Mantell's manager, William A. Brady, has surrounded his star with productions in keeping with the dignity of the tragedian's acting. Since Mr. Mantell's last appearance in Colorado Springs his productions have been rebuilt and repainted practically throughout, and are now considered among the handsomest ever carried on a tour of America.

This season Mr. Mantell has a new leading woman, Miss Genevieve Ham-

MRS. FISKE, TONIGHT, AT THE OPERA HOUSE

Mrs. Fiske, by virtue of her gifts and accomplishments our foremost stage figure, is to come to the Opera house tonight.

Her play, now in its second season, is "The High Road," which is symbolic in a way, but the play does not partake of any particular amount of symbolism. It is, however, so it is said, shot through with a true spiritual quality which is associated with the epochal development of the principal character. Different periods in the life of this character are dealt with periods which mark the various steps in her progression from a childhood of cruelty and lack of every advantage to a position of great public confidence and honor. The soul progression of the character is the thesis of the play, and it is placed against a background of conditions that are just at this time, very much in the public thought.

"The High Road," Edward Sheldon's play of advanced ideas and modern conditions, in which Mrs. Fiske is to be seen at the Opera house this evening, developed the variety of real success in New York last year, and during its engagement was the subject of much discussion and comment. This was aroused by the author's rather novel treatment of the modern morality question.—To what extent should a woman's future be shadowed, and what restrictions should be placed upon a career dedicated to others, by a moral mistake, due in early youth; to ignorance and the influence of a crushing environment?

Mr. Sheldon sounds a clarion note for freedom and justice in his treatment of the subject, and from the reception of the play in New York and elsewhere his position would seem to be well grounded in public sentiment.

Mrs. Fiske has gained one of the most striking triumphs of the many she has known, in the role of Mary Page, the play's central character.

GRAND JURY MAY BE RUN BY WOMEN

SAN MATEO, Cal., Nov. 3.—The new grand jury of this county may be controlled by women. Superior Judge George Buck has summoned 17 women and 13 men to appear before him Wednesday, from whom 18 grand jurors will be chosen. Among those summoned is Mrs. Letitia McRae, society leader and post of Hillborough, a fashionable suburb of San Francisco. If the women form a majority of the jurors chosen, it will be an unprecedented action in the history of the state.

WHY FAMOUS PASTRY COOKS USE K C BAKING POWDER

The patrons of our first class hotels and restaurants are exacting—they demand the best. Women go where the pastry and cakes are noted for their excellence. Men are attracted by hot bread and biscuits—when fresh and moist and light.

The pastry cook with a reputation uses K C Baking Powder because he knows that results are certain; every time everything is as good as his best.

Then, too, with K C Baking Powder he can mix the various kinds of batter before the rush of the meal begins and bake as needed so that every order goes to the table fresh and hot, yet the last he bakes are just as good as the first.

The reasons behind these reasons is that K C is really a blend of two baking powders. One commences to give off leavening gas as soon as moistened. The other requires both moisture and heat to make it active. Dough or batter will remain in a partially leavened condition for hours, and when put in the oven, will come up as light as if mixed a moment before.

For cookies, pancakes, doughnuts and the like, which cannot all be baked at once, K C is indispensable. For all baking the double raise makes doubly certain.

Follow the example of the professional and save time and money.

## THREE DAYS REMAIN TO COMPLETE Y. W. C. A. FUND

Visiting Secretaries Find That Colorado Springs People Are Generous; Have Raised \$4,881.50.

Despite the inclement weather yesterday, a dozen members of the finance committee of the Young Women's Christian Association braved the storm and made a telling effort to increase the \$4,000 fund being solicited for the running expenses of the association. They were Mrs. Franklin E. Brooks, chairman; Mrs. Edgar T. Ensign, Mrs. Pastorus, Mrs. William H. R. Stote, Mrs. William H. Spurgeon, Mrs. Berna H. Hopkins, Mrs. William C. Argo, Mrs. Frederick J. Priebe, Mrs. M. C. Gile, Mrs. William F. Greenwood, Mrs. Norman Campbell, Miss Baumgartner. Six hundred and sixty-four dollars and fifty cents were subscribed, making the total up to \$4,881.50.

Three full days of 10 allotted for the campaign yet remain, and the prospect is very bright that the entire sum will be in early, when the finance committee can take a long breath and retire from the field for a long year, with a satisfying conviction that their duties have been well done.

Mrs. Toussaint presided at the tea-table yesterday afternoon, assisted by Mrs. Williamson and Miss Bertha Arnold. As the members came in, for their refreshment there were many interesting anecdotes to relate and many kind words for the Y. W. to be repeated. The gloom and the storm outside served to accentuate the cheerfulness inside, and the informal tea was probably the most successful one since the first day.

This afternoon at the tea hour two of the girl students who are most actively engaged in the college Young Women's Christian Association work will speak; also Miss Inez Kinney of the western field. It is expected that twice as many workers will go forth to solicit funds this morning as heretofore, and anticipation is high that the fund will near completion tonight. Miss Kinney and Miss Frances Cross, the western field secretaries now assisting the local organization, who have wide and intimate knowledge of campaigns for funds in all their phases, cannot resist the temptation of comparing the progress of the work in this field with that in others in their experience, very much to the credit of Colorado Springs. They feel that the association has more generous friends to the population in this city than in any other field in which they have labored.

In damp, chilly weather there is always a large demand for FALLOWS' SNOW LINIMENT because many people who know by experience its great relieving power in rheumatic aches and pains, prepare to apply it at the first twinge. Price 25c, 50c and \$1.00 per bottle. Sold by all druggists. Adv.

STRATTON HOME DELAYED BY BIG STEEL SHIPMENT

COTTAGES READY BUT DORMITORIES ONLY Started: Will Be After First of the Year

ALTHOUGH the contracts called for the completion of the new Stratton Home south of town by November 1, the buildings are still unfinished, and are yet in such a stage of construction as to make definite announcement of the opening impossible. The chief cause of delay, according to the contractors, has been the difficulty in securing prompt shipment of steel orders.

The several cottages of the home are practically done, but the large dormitories are only well started. Work has been going forward rapidly during the last few weeks, but the indications of coming bad weather probably mean that the work for a time at least will be hindered.

Press stories in Denver recently stated that the estate administration had promised the attorney general of the state that the home would be done by November 1, but according to a statement issued from the offices of the estate yesterday afternoon, no such promise had been made. The trustees say that the building will be pushed forward as rapidly as possible, but affirm that natural delays in shipment and uncontrollable weather conditions may delay the completion of the home for some time.

SALT'S FINE FOR ACHING KIDNEYS WE EAT TOO MUCH MEAT WHICH CLOGS KIDNEYS, THEN THE BACK HURTS

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull pains in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, eat about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with citric and 5% borax to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it is not an irritant to the bladder.

Jad Salts is harmless, inexpensive, makes a delightful effervescent lithia water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

This Pinex and Sugar Syrup remedy has often been imitated, though never successfully. It is now used in more homes than any other cough remedy. BURLINGTON TRAIN IS WRECKED BY BOULDER

LA CROSSE, Wis., Nov. 3.—Passenger train No. 58, on the Chicago, Burlington & Quincy railroad, was wrecked near Genes, Wis., early today when the locomotive struck a boulder half the size of a box car which had been dislodged by recent rains and rolled down the bank into the track.

Engineer James M. Pratt, La Crosse, was possibly fatally injured. His jaw was broken and the side of his face crushed in.

Four Italian track laborers and a negro porter were also injured, not fatally.

First reports of the accident received here was that the wrecked train was the Oriental Limited, the coast train which runs a little behind No. 58. The coast train, however, was not harmed but was delayed several hours. No. 58 is also a fast train and faster than the Oriental Limited.

IS STRICKEN WHILE TALKING TEMPERANCE

GRAND JUNCTION, Nov. 3.—While discussing the wet and dry issue pending in the coming election, the Rev. H. H. Beach today was stricken with paralysis and is in a serious condition tonight.

This is Guaranteed to Stop Your Cough

Make this Daily Supply of Cough Syrup and Save \$5.

This plan makes a pint of better cough syrup than you could buy ready made for \$2.50. A few doses usually cure an ordinary cough quickly. Simple and effective.

Mix one pint of granulated sugar with  $\frac{1}{2}$  pint of warm water, and stir for 2 minutes. Put 2 1/2 ounces of Pinex (fifty cents' worth) in a pint bottle, then add the Sugar Syrup. It has a pleasant taste and lasts a family a long time. Take a teaspoonful every one, two or three hours.

You can feel this take hold of a cough in a way that means business. Has a good tonic effect, braces up the appetite, and is slightly laxative, too, which is helpful. A handy remedy for hoarse, spasmodic cough, bronchitis, bronchial asthma and whooping cough.

The action of pinex on the membranes is well known. Pinex is a valuable concentrated compound of Norwegian pine extract and is rich in guaiacum and other natural pain-relieving elements. Other preparations will not work in this combination.

This Pinex and Sugar Syrup remedy has often been imitated, though never successfully. It is now used in more homes than any other cough remedy.

A guarantee of absolute satisfaction, or money promptly refunded, goes with this preparation. Your druggist has Pinex, or will get it for you. If not, send to The Pinex Co., Ft. Wayne, Ind.

## DRY FARMING IN COUNTY BIG SUCCESS THIS YEAR

Figures in Southwest Trail Show How Scientific Agricultural Methods Win Out

A comprehensive review of dry farming in El Paso county takes the major portion of the contents of the November issue of the Southwest Trail, agricultural publication of the Rock Island lines. "Dry Farming a Success When Based on Dairying" is the general subject dealt with throughout the entire 16 pages of the magazine. The articles prove conclusively that the dry farming system is a success when worked along right lines and with intelligent methods. In the early part of October, Victor H. Schaffhausen, the editor of the publication, spent some time in company with W. H. Lauck, county agriculturalist, going over the county obtaining material and data for the November issue.

That the average acre farm in this county will, if farmed right, yield a cash income of \$1,500, besides all the farm products a large family can use, is the declaration made by Prof. H. M. Cottrell, agricultural commissioner of the road, in the opening article of the issue. He also states that a well-selected hen will cost \$2 a year, and a dairy cow of strong type, \$75 a year from butter fat alone. He maintains that the dairy cow is the foundation of El Paso County's agricultural prosperity.

A few of the more interesting statistics contained in the magazine follow:

Between \$450,000 and \$500,000 is annually paid the dairy farmers of the county for butter fat by the five leading creameries of Colorado Springs.

Yellow Dent corn, yielding almost 10 tons of silage per acre, is being grown at an elevation of 8,800 feet.

One poultryman alone sells \$6,000 eggs a year.

Five acres of fava beans, a drought-resisting crop, yielded 30 bushels an acre.

With less than six inches of rainfall between April 16 and September 25, a crop of California pink beans yielded 900 pounds of shelled beans per acre.

## HOME RULE IN DENVER UPHELD

DENVER, Nov. 3.—The state supreme court today upheld commission form of government in Denver. Justice Hill wrote the opinion. Justice White and Garguilo dissented.

The opponents of the commission government carried the case to the supreme court on the principal ground that the charter amendment adopted at a special election was illegal and should have been accomplished by a special charter convention. The supporters of commission government contended that the charter amendment was legal inasmuch as a majority of the voters approved the change.

The effect of the decision is to continue in office the present city commissioners.

The suit was brought by M. F. Moore, formerly alderman in the Arnold administration.

Moore sought to oust the present city commissioners in the district court. The lower court refused to grant his request. Moore appealed to the supreme court.

In effect the court held that when the state assembly approved the Rush bill granting charter government to the city of Denver it gave unlimited power in matters of local government; that the people had the right to amend the charter either by a charter convention or initiated amendment as was done, and that

A tight feeling in the chest accompanied by a short, dry cough, indicates an inflamed condition in the lungs. To relieve it buy the dollar size BALDARD'S HORSEHOUND STRUP; you get with each bottle a free HERRICK'S RED PEPPER POWDER PLASTER for the chest. The syrup relaxes the tightness and the plaster draws out the bulk formation. It is an ideal combination for curing colds settled in the lungs. Sold by all druggists. Adv.
